## ROBUST POLYBOARD

We, **Robust Polyboard** are overwhelmed to introduce ourselves as one of the leading manufacturers of WPC/PVC foam board and doors in the country. With the state-of-the-art machinery and extensive technical experience of more than 40 years in the field of pvc, we have moved a step forward from our current pvc foam sheet production to PVC/WPC doors and frame manufacturing.

With a widespread, PVC manufacturing experience we are in continuous endeavour to expand ourselves as one of the most committed company for delivering our quality products with various customer needs belonging to industry segments like construction, furniture, wood industry, interiors, advertising etc.

Our zeal to serve our current and new customers with diversified requirements have encouraged and motivated us in populating our product basket with diversified options for various industry needs.

### VISION

Using our strength of several years of experience in PVC field we look forward to cater most of the construction and wood industry.

Clear vision and strong desire makes us a distinct manufacturing company which constantly endeavours to deliver its best quality standard products not only in our nation locally, but we look ourselves as a renowned global market supplier in near future.

We as a composite team and one-stop solution comprising af are looking forward to delivering and leading an important role in **“MAKE IN INDIA”** Movement.

We are fascinated, hence compelled and motivated to strive hard to conserve the nature by replacing the natural wood consumption with strong, varsatile and reliable PVC and follow the footsteps of **‘GREEN REVOLUTION’** and hence helping serve the nature.

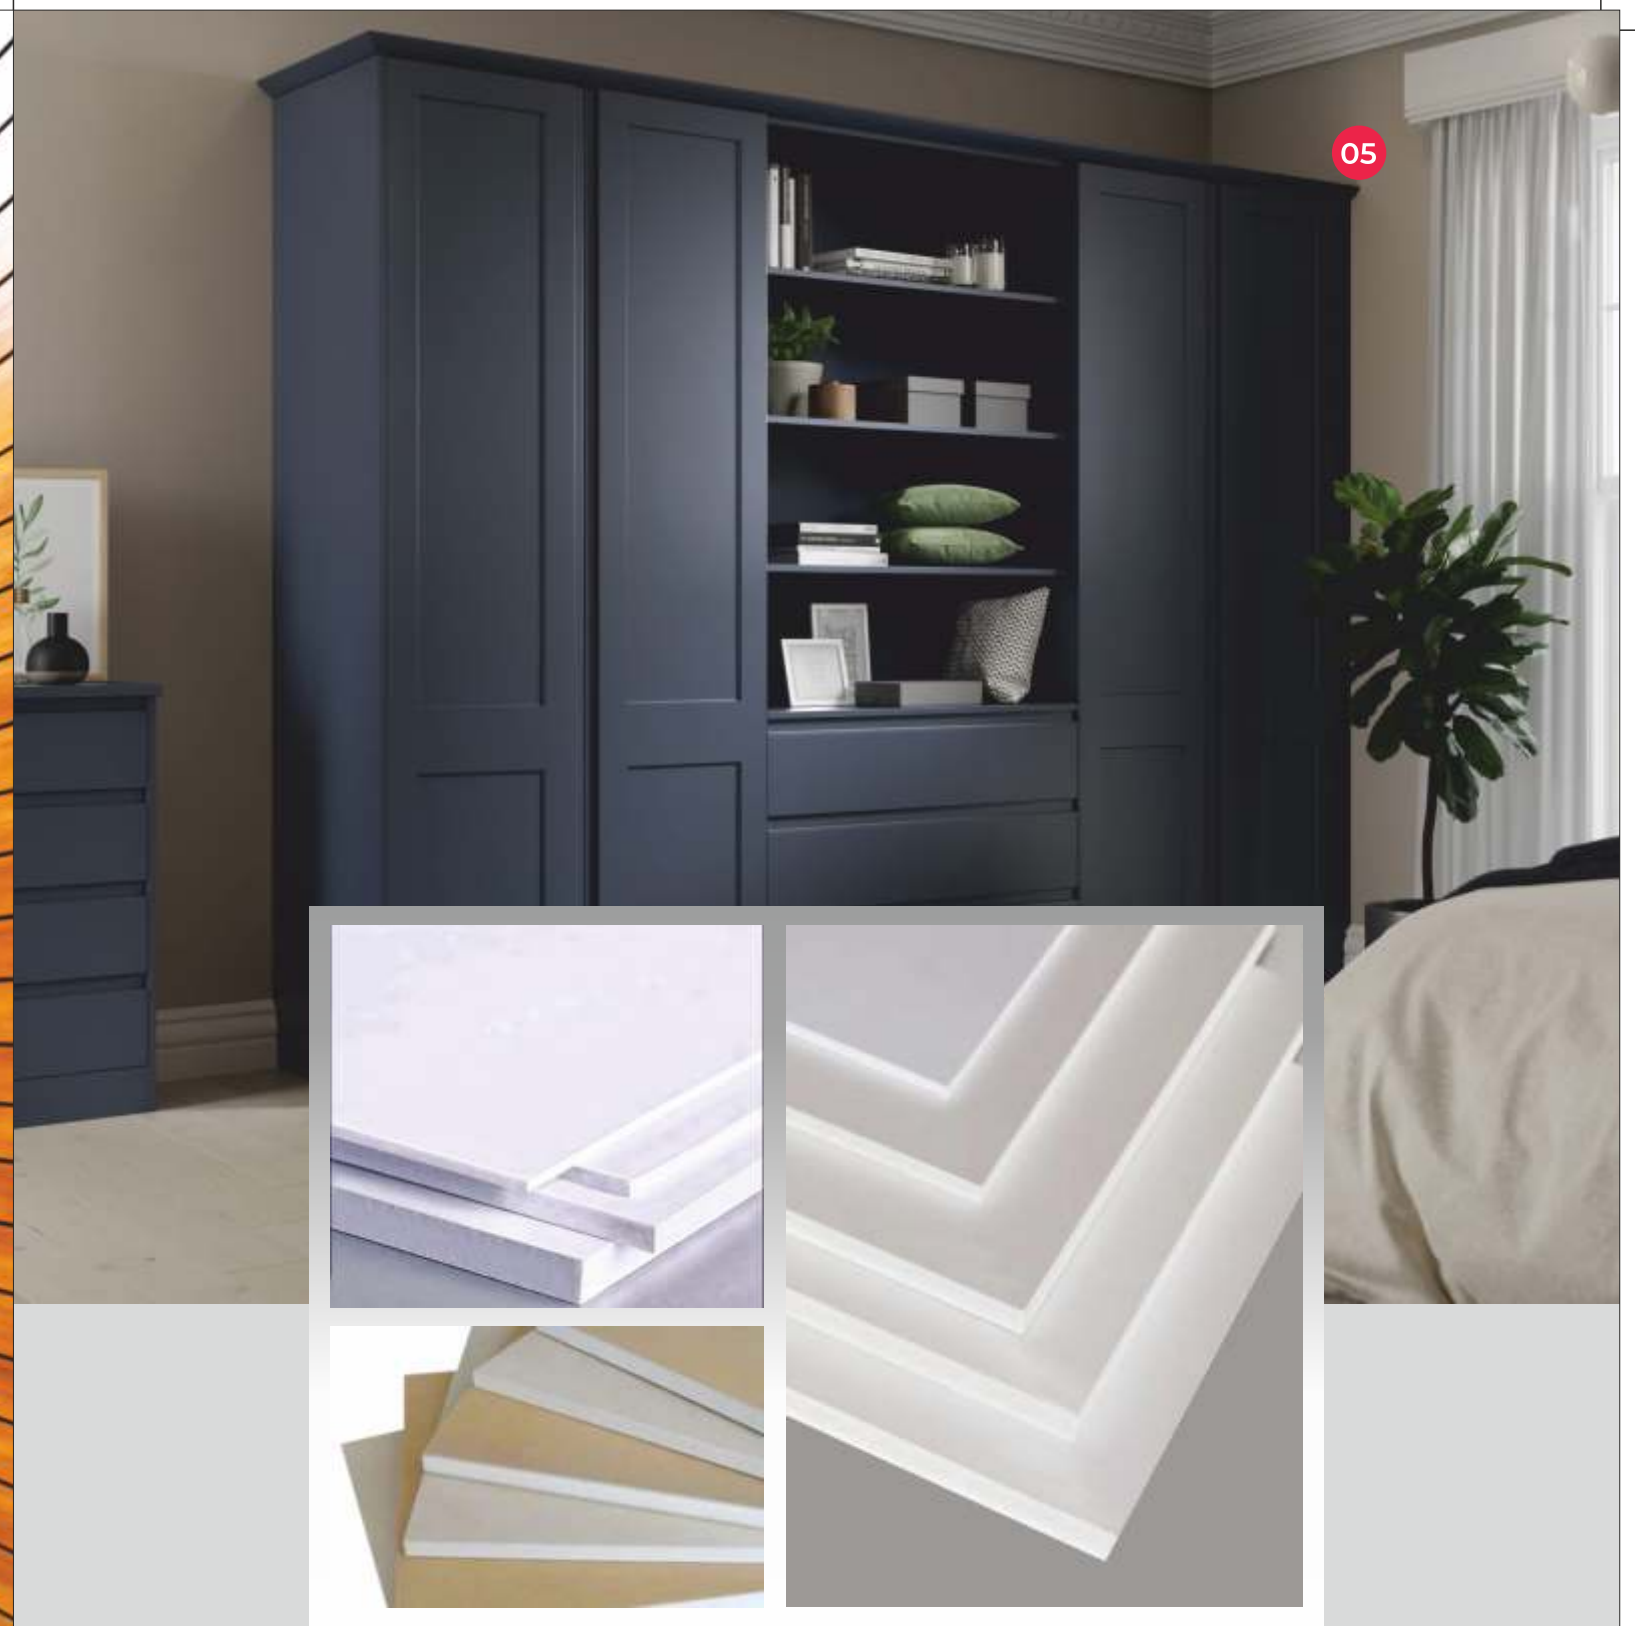

## RO-PLASTIWUD ADVANTAGES...

- Strong & Durable
- 100% recyclable supporting green movement of wood conservation
